Please note that whenever an insured event occurs, you must provide complete and true information. The insurers would point to the fact that in case of a breach of the existing obligation to provide information or explanations, there is a risk that they would be released in full (in case of intent) or in part (in case of gross negligence) from their obligation to provide benefits. Where a third party is entitled to the benefits payable under the contract rather than you, the said third party is equally obliged to provide information and explanations.
